Automation & Engineering Capabilities

Sales Engineering:
- Project and Conversion Proposals
- Generate Bills of Material and Pricing
- Product Updates
- Lunch & Learns
- Competitive Cross Reference

Application Engineering:
- Pre & Post Sales Support
- Automation Equipment Selection
- Proof – of – Concept
- Servo & VFD Drive and Motor Selection/Sizing
- Programming Assistance
- Onsite Support

Training:
- Regularly Schedule Classes Across 3 Training Centers
- Custom Classes
- On-Site Classes
- "Jump Start"

Control Panel Manufacturing:
- Specification & Design
- AutoCad Electrical Drawing Packages
- Bill of Materials Generation
- UL508 A Panel Shop
- OEM Products
- Cable Harnesses and Subassemblies

Products:

Programmable Controllers	Human Machine Interface
Motion Control	Ethernet Infrastructure
Machine Safety	RFID, Barcode
NEMA & IEC Control	AC & DC Drives
SCADA	Distributed I/O
